

Our products
improve palatability
and replace grains
in feed

About ecofeed

Founded in 2018, we are India's largest processor of bakery byproducts with food-to-feed conversion capacity of over 10,000 MT with 4 factories across India.

We are trusted partner to many major brands in the feed industry handling wide range of starch-rich surplus and co-products.

Best in Industry R&D team

Our team of nutritionists lead by former scientists & experts from National Dairy Development Board, work relentlessly to ensure quality & consistency in our bakery mixes.
